Little Woods School

2018 - 2019,

Kakinada

Percentage: 90.2%

INTERNSHIPS

Java Full Stack Trainee

Techwing

11/2023 - Present,

Rajahmundry

I have acquired knowledge of web development fundamentals and developed my skills in popular technologies such as HTML, CSS, and Angular. I am skilled in building user-friendly interfaces and developing robust back-end logic using MySQL databases, as demonstrated through projects like a Netflix clone, a historical places of India application, and a weather forecasting application.

AWS Cloud Intern

Techwing

05/2023 - 07/2023,

Rajahmundry

During my AWS Cloud internship, I gained hands-on experience with EC2, S3, RDS, and Lambda. I automated infrastructure using CloudFormation and Terraform, enhanced security with IAM, optimized performance with CloudWatch, and integrated AWS solutions with existing systems, delivering scalable cloud solutions for real-world business challenges.

Artificial Intelligence Intern

AIMERS

05/2024 - 07/2024

Virtual

Gained hands-on experience with AI and computer vision technologies, including implementing hand gesture recognition, image classification, object detection, and visual question answering models as part of the internship.

PERSONAL PROJECTS

Netflix-Clone (FRONT-END DEVELOPMENT | HTML | CSS)

– In my pursuit of mastering full-stack web development, I designed and implemented a Netflix clone, effectively replicating the essential features and user experience of the renowned streaming service.

Portfolio (HTML | CSS)

– The main objective of this project is to build an online presence that compellingly showcases my professional identity, highlights my work, and offers a seamless way for interested parties to connect with me.

Telegram Bot (Using ChatGPT API)

– Developed a Telegram bot using the ChatGPT API to provide interactive and intelligent responses, enhancing user engagement and functionality.
– Implemented features to handle various user queries effectively, creating a seamless and intuitive experience for users.
